

Empowering businesses with SAP enterprise solutions

Enabling
intelligent and
sustainable digital
transformation with
SAP

ust.com

UST and SAP collaborate to provide the best of breed technology solutions to global enterprises addressing their challenges in today’s digital world. With our deep domain-specific expertise and human-centered approach, we provide a wide-ranging portfolio of offerings spanning the complete life cycle of SAP enterprise solutions supported by SAP S/4HANA digital core suite and RISE with SAP.

Enabling the SAP Digital Enterprise

Standardize and simplify the core

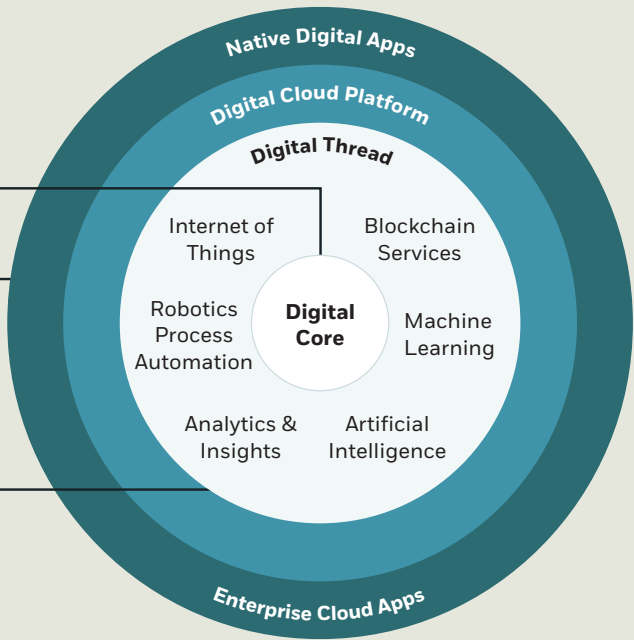

Use industry best practices to standardize and simplify your core enterprise applications.

Innovate and differentiate

Leverage SAP Business Technology Platform to centralize development. Drive your digital experience with human-centered custom apps.

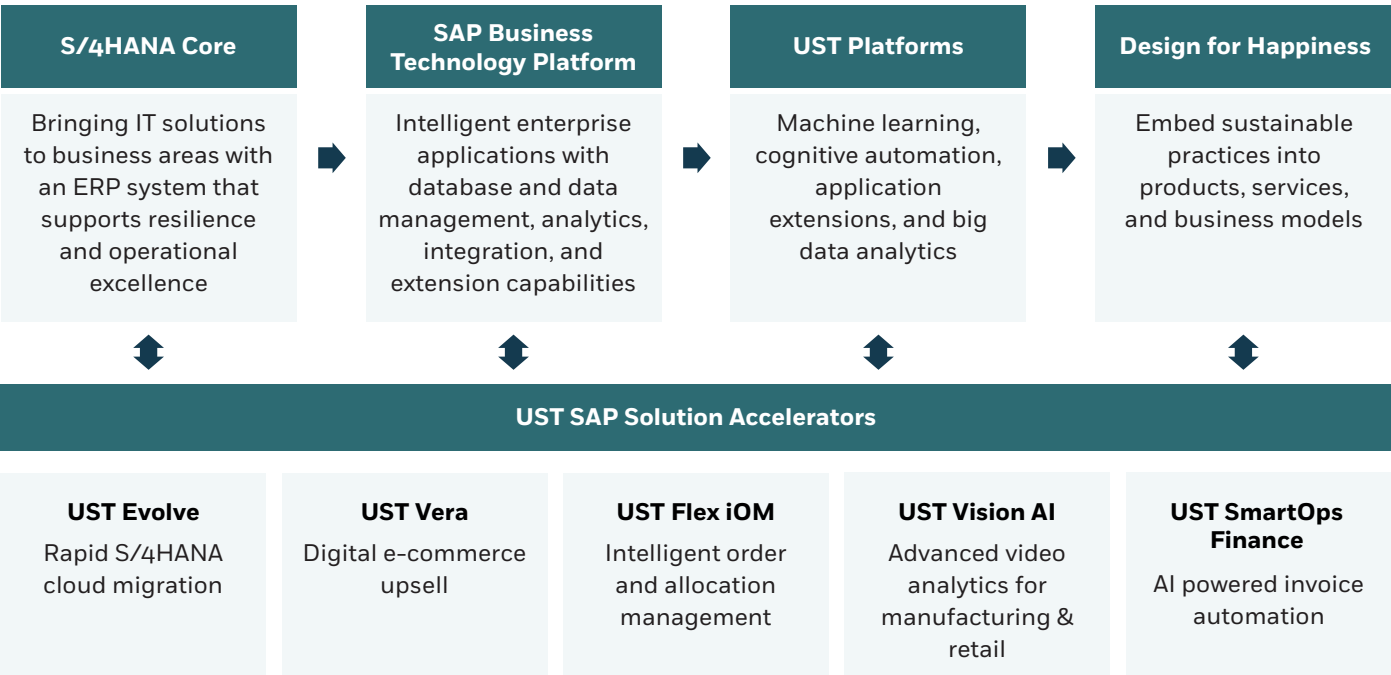

Enable and orchestrate

Leverage modern advanced technology as Digital thread, to gather insights, increase productivity and automate.

Building blocks for digital enablement

Innovation drivers and approach to extending the S/4HANA Core

UST has developed a portfolio of offerings to drive value and differentiation for businesses adopting RISE with SAP:

- **UST Rapid Readiness:** A proven eight-stage S/4HANA pre-preparation framework that enhances the SAP activate methodology and ensures that business drivers and pain points are mapped to S/4HANA capability. This also helps align landscape and cloud strategy, while leveraging our design for happiness approach to human-centric digital development, all of which results in a clear roadmap for standardization, innovation, and a transformation business case.
- **UST Fast Start:** An upgrade and cloud migration trial offering which allow enterprises to de-risk their S/4HANA migration by allowing UST to upgrade and migrate you in our cloud as a trial, accelerating the ultimate journey to S/4HANA on the cloud.
- **UST Evolve:** Rapid migration of SAP ECC environments to S/4HANA in the cloud has become an essential component to most transformation journeys. UST Evolve is a hybrid migration framework, leveraging UST accelerators and IP to accelerate the digital transformation.

Practice Snapshot

Retail

Platform led services and innovation extended to SAP Business Technology Platform and digital services

CPG

Transition from custom apps and back office support to full stack SAP digital transformation services
